Attachment I

The reasons that I rely upon to support requested changes, and preserve these issues for a higher court, are as follows:

- I. The base year (2015) value (which was utilized for the Escaped Assessments (for 2017-2025) were calculated incorrectly, based on the following undisputed facts:
 1. The land in question is a land-locked parcel and has no legal easement. All of the comparables used by the Assessor's Office included, but not limited to, parcel numbers: 001-021-020, 002-010-130, 002-012-390) possessed legal easements.
 2. The land has no water supply. A recent Appraisal Report by John Rensen (who worked as the Mendocino County Assessor for 28 yrs) states, the unlike the other comparables in the report, this land has no spring or well, and was therefore appraised at \$129,000.

3. The improvements on the property were overvalued. Chiefly among these, was the mobile home, which the assessor's office valued at \$255,000 in 2023. Such inaccurate valuations are due to the fact that no one from the assessor's office has ever visited the property. Conversely, the Appraiser looked at all of the buildings and valued them at less than \$10,000. The appraisal report (complete with pictures of the structures) are on file with the Assessor's Office. Since the submission of this report, the Assessor's Office has lowered the value of these structures to \$23,562 (which still overvalues these improvements) but has made no attempt to visit the property and assess its actual value.
