

I hereby submit my PUBLIC COMMENT to the BOS regarding the Sonoma Clean Energy item, scheduled for OCTOBER 21st at 9AM.

SUBMITTED BY: Darlene Warner, Lake County Citizen and Member of the Cobb Area Council

COMMENT:

Chairman Crandell, Vice-Chair Rasmussen, Supervisors Pyska, Sabatier, and Owen:

I strongly urge each of you to vote in favor of joining Sonoma Clean Power.

It provides the County the opportunity to be directly involved in our energy choices. With SCP being not-for-profit and with the County having two seats on the Sonoma Clean Power Governing Board, it provides the opportunity for the County to have local influence over the geothermal resources and energy choices in our County.

For the consumer, Sonoma Clean Power gives people an opportunity to save money, and gives them choices.

As a consumer who lives in Cobb, near the geothermal geysers - I would be happy to know my power was coming from the geysers - local, clean energy - for 5% to 7% savings on average.

Forever, we've had one choice, PG&E. We now have a great opportunity before us - please vote in favor of joining SCP.

If we don't take our two seats at the table now, I'm concerned who will - if not Lake County, then who?

Thank you,
Darlene Warner
Cobb, CA
