

To: Board of Supervisors of Lake County
Re: Sonoma Clean Power Agreement

Dear Supervisors,

The Sierra Club Lake Group Executive Committee requests that you vote YES to enacting an Ordinance Authorizing the Implementation of a Community Choice Aggregation Program by Participating with the Sonoma Clean Power Authority. This gives the County a seat at the table in making future decisions.

We also request that you make a Resolution requesting that the Sonoma Clean Power Authority act as Community Choice Aggregator on behalf of the County and implement the Sonoma Clean Power Community Choice Aggregation Program within the County. This is an opportunity that should be taken to give the citizens of Lake County options in their electricity provider. History in other counties that have aligned with SCP has shown that this will lower power bills for many residents and businesses. PG&E is unlikely to provide any relief to their rising rates.

And lastly, we ask that you make a Resolution Establishing County Membership in the Sonoma-Lake-Mendocino Geothermal Opportunity Zone. This should not require us to participate in the expansion of geothermal power in Lake County, but allow us the opportunity if it makes sense in the future.

Thank you for taking comments on these important considerations.

Deb Sally,
Chair, Sierra Club Lake Group
