Good morning,

I'm writing you in regards to the the wind farm that is in the process of going up around my property. Parcel# 012-014-100-000.

I have three cousins that own land that are in the same area as me. But for some reason only Mr Cook last week received a letter in regards to the temporary meteorological towers.

The Wind farm has been in the process for the last four years and never received a letter or town hall meetings about this???

My address is on my taxes I pay every year. This property had been in the family for 50 years...

First Question is there going to be electrical lines above ground? Also is this project a done deal?

I would like any information you can give me on this project.

Cindy Baltzley. Ph. 925-270-8402
