ELECTRONIC RECORD AND SIGNATURE CONSENT DISCLOSURE

YOUR NAME: _____

- 1. Electronic Records.** "Electronic Records" means any agreement or contract with us for the installation, monitoring, service, repair, or programming of any equipment or service that we may provide you now or in the future, including all other disclosures, documents, emails, invoices, statements, notices, or other information regarding new services or products.
- 2. Consent.** You affirmatively consent to use, receive, and send Electronic Records from or to us, and you have not withdrawn your consent. Your consent is effective until you give us notice that you are withdrawing it and applies to all Electronic Records that we may provide during the course of our relationship with you. We may always, in our sole discretion, communicate with you in writing even if you have chosen to receive records electronically.
- 3. Hardcopy of Electronic Records.** You may request a paper or hardcopy version of an Electronic Record at any time. We may charge you a reasonable fee for the production and mailing of paper versions of Electronic Records. To request a hardcopy of an Electronic Record, please call us at the number above.
- 4. Withdraw Your Consent.** You may withdraw your consent to receive Electronic Records from us at any time. To revoke your consent to receive Electronic Records from us, please call us at the number above. Your withdrawal of consent will become effective after we have had a reasonable opportunity to act upon it, and will cause hard copies of documents and other materials to be mailed to you. Additional fees may apply if you withdraw your consent.
- 5. Your Email or Electronic Address.** You must promptly notify us of any change in your email or other electronic address. You may change your email address or mobile phone number for SMS text messages by mailing, emailing, faxing, or calling us by using our contact information above.
- 6. Hardware and software.** To receive Electronic Records, you must have an active email address. You must also have access to (a) a current version of an Internet browser that we support; (b) an Internet connection; (c) a current version of a software program that reads and displays pdf files (portable document files) such as Adobe Acrobat Reader; and (d) a computer, laptop, or other device with an operating system capable of supporting all the above. You will also need a printer if you want to print out and keep hardcopies of the Electronic Records. You will also need electronic storage to keep Electronic Records in an electronic form. We are not responsible for computer viruses or related problems associated with use of an Internet or online communications systems.
- 7. Changes to hardware or software requirements.** If our hardware or software requirements change, and that change would create a material risk that you would not be able to access or retain your Electronic Records, we will give you notice of the revised hardware or software requirements. Continuing to use, receive, or send Electronic Records after receiving notice of the change is confirmation of your consent to the changes. If you decide to withdraw your consent after receiving notice, no fees will be charged for mailing communications or records under Paragraph 4.

To receive Electronic Records from us, please sign below. By providing your agreement and consent, you are confirming that you can access information in the Electronic Records that will be used to provide the information that is the subject of this Consent, that you have the hardware and software described above, that you are able to receive and review Electronic Records, and that you have an active email account. You are also confirming that you are authorized to consent to the use of Electronic Records on behalf of all other authorized account users. You should keep a copy of this Consent Disclosure.

"Delivering Peace of Mind"

Proposal Date: 5/13/2026

Proposal Valid To: 6/12/2026

ABOUT US

Welcome to Advanced Security Systems, where your peace of mind is our top priority. We take pride in being a locally-owned, family-run business with a legacy of over five decades dedicated to security and life safety.

At the core of our philosophy is the belief that our clients are like family. This familial approach is embedded in all aspects of our operations, ensuring that you not only receive top-notch security solutions but also the personal attention and care that you deserve. We are committed to giving back to the communities we serve and participate in various initiatives and partnerships to make the neighborhoods safer and more secure.

Our dedication and excellence in the security and life safety industry were nationally recognized in 2021 when we received the acclaimed title of SDM Dealer of the Year from a leading industry magazine. This award is a testament to our unwavering commitment to quality, innovation, and customer satisfaction, setting the standard for others to follow.

At Advanced Security Systems, we are more than just a security provider. We are your trusted partner in safeguarding what matters most.

OUR SERVICES

Design Services

At Advanced Security Systems, we take pride in our NICET certification and unwavering commitment to excellence and precision. Our seasoned professionals employ the latest AutoCAD programs to bring your vision to life, with meticulous attention to detail that enhances the safety and security of your property. We excel in blueprint interpretation and can translate your architectural plans into comprehensive security and life safety designs. Our team is well-versed in regional standards, ensuring compliance with local codes and regulations. Count on us to deliver top-notch security solutions that not only meet but exceed your expectations.

Free Security Review

We're dedicated to our customers' safety and well being, which is why we offer a free security review to all, regardless of their location. This allows us to tailor our solutions to meet each customer's specific needs and vulnerabilities by conducting a thorough security review. Identifying any vulnerabilities proactively is crucial, which is why the review process is so important. It also provides a platform for us to educate customers on the latest security technologies and best practices.

Professional Installation

Our skillfully trained security team guarantees that your security and life safety systems will be installed with the utmost care. Our technicians are not only intelligent and knowledgeable, but they also continually advance their education and credentials through local, statewide, and national training programs ensuring that they are always up to date in the latest products and practices.

OUR SERVICES

Testing & Maintenance

Our company offers state-of-the-art security solutions with continued maintenance and contracted services to ensure optimal performance and compliance with commercial life safety guidelines. Our services include routine checks, updates, and comprehensive device-specific reports, providing insights into system performance and maintenance activities. With a user friendly customer portal and mobile app, you can access inspection reports and stay informed about fire codes and factory recalls 24/7 from anywhere. Our proactive approach identifies potential issues before they become larger problems, saving you time and money. Trust us to exceed your security expectations.

24-Hour Monitoring

Our commitment to safety and well-being has earned us the TMA Five Diamond Central Station rating. Our state-of-the-art center delivers prompt and detailed information about security events, with a discreet text chat feature for communicating with emergency contacts and cancelling alarms. Our UL certification ensures we maintain the highest quality standards, and our monitoring center's responsiveness is crucial in coordinating with emergency services.
