Dear Trish Turner:

Thank you for your project notification letter dated April 21, 2025, regarding cultural information on or near the proposed 1780 Hwy 53, Clearlake, in Lake County. We appreciate your effort to contact us and wish to respond.

Thank you for your project notification letter dated March 28, 2024, regarding cultural information on or near the proposed Lower Lake High School Campus, in Lake County. We appreciate your effort to contact us and wish to respond.

The Koi Nation Cultural Resources Department has reviewed the project and concluded that it is within the aboriginal territories of the Koi Nation. Therefore, we have a cultural interest and authority in the proposed project area and would like to initiate a formal consultation with the lead agency. Based on the information provided, the Tribe has concerns that the project could impact known cultural resources. Due to the high sensitivity of the project APEs, we highly recommend cultural sensitivity training for all project personnel. At the time of consultation, please provide our Cultural Resources Department with a project timeline, detailed project ground disturbance plan and the latest cultural resource study for the proposed project.

Please contact the following individual to coordinate a date and time for the consultation meeting: for the proposed project.

Good Afternoon Mr. Mota,

I will officially close the Tribal Consultation process with Global Interactive Solutions LLC, UP 24-15/ PL-25-120. We will be incorporating the following Tribal Cultural Resources mitigation measures:

Tribal Cultural Resources: a site, feature, place, cultural landscape, sacred place or object with cultural value to a California Native American Tribe.

TCR-1: All on-site personnel of the project shall receive tribal cultural resource sensitivity training prior to initiation of ground disturbance activities on the project. The training must be according to the standards of the NAHC or the culturally affiliated tribe(s). Training will address the potential for exposing subsurface resources and procedures if a potential resource is identified. The training will also provide a process for notification of discoveries to culturally affiliated tribes, protection, treatment, care and handling of tribal cultural resources discovered or disturbed during ground disturbance activities of the Project. Tribal monitors will be required to participate in any necessary environmental and/or safety awareness training prior to engaging in any tribal monitoring activities for the project.

TCR-2: If previously unidentified tribal cultural resources are encountered during the project altering the materials and their stratigraphic context shall be avoided and work shall halt immediately. Project personnel shall not collect, move, or disturb cultural resources. A representative from a locally-affiliated tribe(s) shall be contacted to evaluate the resource and prepare a tribal cultural resources plan to allow for identification and further evaluation in determining the tribal cultural resource significance and appropriate treatment or disposition.

If you have any questions or concerns, please do not hesitate to reach out to me.

All the best,

Trish Turner
