Subject: [EXTERNAL] Re: Cannabis tax reduction

After calling down I was told that I should include the reduction size of the area used. Due to the Blue oaks on the property and the state mandates for car turning area we were only able to grow on 25% of the area allotted.

Sincerely, Kenneth Pacheco

> Last week I went down to the county to see if I could get a reduction of use for the 2025 cannabis tax. Since I was not in the states from February 13th all the way until December 25th of last year I was not able to submit the reduction of use form by the June 13th deadline. Last year was my first year actively growing and I didn't not understand nor did I have the capabilities to submit the proper paperwork before the deadline. I was told that the board is only the authority that could help with my reduction request since the deadline has passed. Is there anyway I can get a meeting with them or are you able to plead my case to them for me. Any help in this matter is much appreciated and sorry for any inconvenience this might cause you.
